RE: [Radiographer II], [GHK-RII] posting, [September 30, 2022] for Hire

Dear Hiring Manager,

As a longtime admirer of Gleneagles Hospital Hong Kong, I was excited to see your opening for a Radiographer II, as seen on the Gleneagles Hospital home page. As an undergraduate of Year 4 student radiographer, I am confident I have the qualifications required to become a beneficial member of your team.

My educational qualifications include my Higher Diploma in Medical and Health Products Management, Bachelor Degree in Diagnostic Radiography, and my work experience with Department of Psychiatry at Faculty of Medicine, HKU. As a successful laboratory intern, I repeated process tediously for quality assurance, addressing mistake for a better data output, and reviewing cases routinely so to demonstrate genuine interest in customer welfare. In this role, I further developed my persistency in safety control and patients detailed-orientated ability. I believe that my core skills would make me a valuable addition to your team.

In my most recent position as student radiographer at Hospital Authority (HA), I had the opportunity to perform a range of radiographic examinations with appropriate radiographic techniques necessary to succeed in your role. Examples of my relevant experience include General radiography, CT, MRI, Ultrasonography. Via working with multidisciplinary team, my ability to remain calm for the sake of the patient is helpful in their positioning and preparation for each examination. I am also known for my skills in excellent communication.

I am confident that I would be an excellent match for your team. I've attached my resume for reference and look forward to hearing from you soon. Thank you for your time and consideration.

Sincerely,
Li Hoi Ying Iris
