

Is the Moderna XBB COVID-19 Vaccine suitable for you?

Part 1: Understand Your Eligibility

Condition 01

Aged 12 years old or above

Condition 02

At least 180 days
since your last dose or recovery from
COVID-19 infection

whichever is later

According to the Centre for Health Protection, if you are eligible to receive the XBB vaccine, you may use it as initial dose or additional booster¹. Please consult your doctor for details.

Part 2: Understand Your Risk Level

Do you have any of the following conditions?

Aged 50
or above

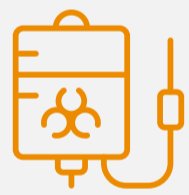

Chronic Diseases
such as diabetes, asthmas,
heart diseases, etc.

Obesity
BMI \geq 30

Pregnant

**Immunocompromised
conditions**

**Undergoing immunosuppressive
therapy or medication**
such as cancer chemotherapy, etc.

If you have any of these risk factors, your age or physical condition may increase your risk of COVID-19 complications, hospitalisation, and severe illness. The more risk factors you have, the higher your risk may be. Please act now and consider getting the latest COVID-19 vaccine.
